

Estrellita

Little star

Listen to the song and do the actions together by twinkling your hands then pointing them up to the sky and down to the ground. Shrug your shoulders for 'How I wonder what you are' and then make your forefingers and thumbs join together in a diamond shape.

Song 12

¿Estrellita dónde estás?	Little star, where are you?
¡Me pregunto qué serás!	I wonder what will you be!
En el cielo y en el mar	In the sky and in the sea
Un diamante de verdad	A real diamond
¿Estrellita dónde estás?	Little star, where are you?
¡Me pregunto qué serás!	I wonder what will you be!

Did you know?

In Spain and Latin America, the stars forming the well-known constellation of Orion's Belt are known as '**Las Tres Marías**', or 'The Three Marys'. If you are in the Northern Hemisphere, look out for this constellation on a clear night in winter. You will see three bright stars, evenly spaced and in a straight line. If you are in South America, you will see the three stars in June and July.

El cielo

The sky

Count the stars. How many are there? Twenty

veinte

diecinueve

dieciocho

diecisiete
